STRUT KRACK

ONE RACEWAY. MULTIPLE WIRING SYSTEMS

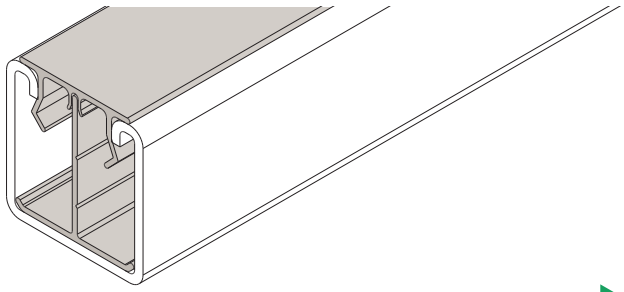

Made in USA

- Made from Black Plastic
- Standard Length 10 Foot.
- Fits Standard 1-5/8" x 1-5/8" Metal Channel Raceway
- The NEC specifically recognizes **strut-type channel raceway under Article 384**, including requirements for conductor fill and construction

Easily Installed in Seconds

- Strut Krack is a raceway divider for strut channel that separates power, signal, emergency, and general circuits to help support code-compliant cable management within a single strut raceway.
- **One Raceway. Multiple Wiring Systems.** Divide strut raceway into dedicated compartments for efficient circuit separation where permitted by code.
- **Reduce Raceway Runs:** Minimize additional strut, supports, fittings, and installation labor by maximizing the usable space within each raceway.
- **Built for Modern Electrical Infrastructure:** Ideal for data centers, corridor lighting, controls, and other applications where space-efficient cable routing is critical.
- **Support + Raceway + Separation:** Take advantage of strut's ability to serve as both a structural support and raceway while adding an integrated solution for cable organization and separation.
- Provides physical circuit separation within strut-type channel raceways for applications where divided raceways are permitted by the NEC and local authority having jurisdiction.

Strut Krack

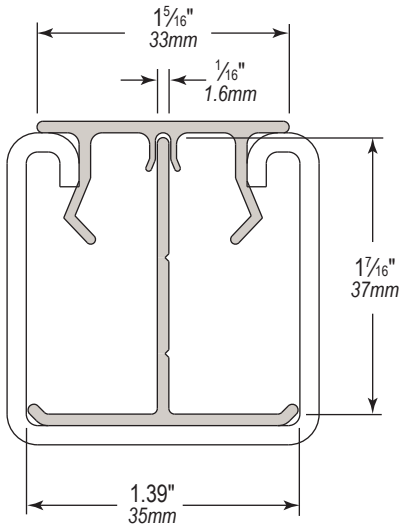

Wesanco-ZSI's Strut Krack is a raceway divider designed for use with strut channel to create separate cable pathways within a single raceway. It helps maintain proper separation between power and signal cables, different voltage classes, and emergency and general circuits where code requires isolation.

Easy to integrate into strut-based raceway systems, the Strut Krack provides a simple, organized solution for improving cable management, supporting code compliance, and maximizing the functionality of existing strut installations.

It's just that simple!

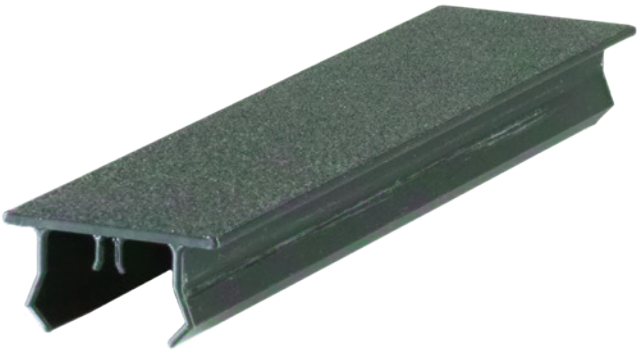

Part No.	Description
W6510PLASTIC-US	Divider
W6500SKPLASTIC-US	Closure Strip for Divider

Cable Divider

Closure Strip for Divider
